

**LIMITED WARRANTY**

Sandel Avionics, Inc. (hereinafter referred to as "Sandel") provides the following limited warranty. If you should have any questions, please contact the avionics shop that sold the SN4500 or contact Sandel directly.

**Conditions of Limited Warranty**

The SN4500 is warranted against defects in material and workmanship for a period of two (2) years from date of installation. Sandel or an authorized representative will repair such defect or replace the defective unit without charge for parts or labor. Routine maintenance work and the results of normal wear are not covered by this warranty except as noted. During the warranty period, Sandel will replace any individual electronic part, sub-assembly, or finished product judged by Sandel to be defective, without charge for parts. Parts replaced under this portion of the warranty are warranted for the remainder of the original product warranty.

Sandel reserves the right to utilize reconditioned subassemblies as warranty replacements in the repair of the product. In the event Sandel determines that the unit cannot be repaired, Sandel will replace the defective unit with either the same model product or one that is reasonably equivalent. At Sandel's discretion, replacement units or repaired units may include software or hardware updates and revisions that alter some characteristics of the product.

Sandel assumes no responsibility for payment of any repair services performed by third parties including removal of the unit from the aircraft, inspection, packaging, handling, or installation unless such services are authorized in advance and in writing by Sandel.

Sandel reserves the right to make changes, upgrades, and improvements to its products without incurring any obligation to install such changes, upgrades, and improvements in previously manufactured products.

If, during the warranty period, title to the aircraft in which the product is installed is transferred, the remainder of the warranty may be transferred to the new owner by notifying Sandel in writing of the transaction. Such notification must include complete address information for the original owner and the new owner as well as the registration number and serial number of the aircraft and the serial number of the Sandel product.

Please contact Sandel directly if you have any questions regarding the Sandel limited warranty. This limited warranty is applicable only in the fifty states of the USA and the District of Columbia and Canada. It is not applicable in the possessions or territories of the USA or in any other country. Warranty period for all countries other than the USA and Canada is limited to two (2) years from date of installation. This limited warranty is the only warranty, which Sandel makes with respect to your SN4500. Sandel disclaims all other warranties relating to the product including warranties of merchantability and fitness for a particular use.

In any event, Sandel shall not be liable for any incidental or consequential damages. Some states do not allow the exclusion or limitation of incidental or consequential damages and some states do not allow limitations on how long an implied warranty may last; therefore, the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights that vary from state to state. In the event any of the provisions of this warranty are found by statute or by applicable administrative or judicial entity to be unenforceable, the remaining provisions shall remain in force.

**Owners Responsibilities**

Please read the Pilot's Guide of your SN4500 and the equipment to which it is connected. The information provided in your Pilot's Guide covers operation, safety precautions and routine maintenance.

This warranty does NOT cover expenses incurred due to a lack of understanding of the functioning of the product when it is operating as designed.

In order for the warranty to be in effect, the owner must complete on-line warranty registration within 90 days from date of installation.

In order for Sandel to provide warranty service, the owner may be required to:

- Supply proof of purchase documents.
- Permit Sandel or an authorized representative to provide the applicable warranty service during normal business hours.
- Retain and provide to Sandel (upon request) any documentation of the installation of the product in your aircraft.
- Provide Sandel with all pertinent information regarding the symptoms, failure, or defect initiating the request for warranty service.

**Exclusions (this warranty does not cover the following)**

- Failures that are the result of improper installation, maintenance, or repair.
- Failures that result from neglect, abnormal strain, modification, accidental damage, theft, vandalism, or exposure to extremes in temperature or relative humidity.
- Products whose trademark, name, or identification numbers have been altered or removed.
- Radio frequency interference generated by equipment operated in violation of applicable FCC rules.
- Equipment purchased "As New" from a dealer or distributor not authorized by Sandel.
- Loss of business income during warranty repair process.
- Shipping charges to and from Sandel.
- Uninstall/reinstall cost of unit to be repaired.
- Customs fees, duties, and taxes imposed by local and foreign government agencies and brokerage fees.

All product or material returned to Sandel must be properly packed and labeled with a Returned Material Authorization (RMA) number. Should proper packing materials not be available, Sandel will provide an approved shipping container on request.
