

## **SIL 3500-20 Service Information Letter SN3500 Primary Navigation Display**

---

Date: January 24, 2014

Regarding: SN3500 Primary Navigation Display, MOD A Hardware

SIL Revision: A – Initial Notification

### **Reason**

SN3500 MOD A and software version A4.06

### **Applicability**

Applies to Sandel part number SN3500-xxx and SN3500-xxxx with MOD A (Serial numbers 5-4500 and higher)

### **Description**

SN3500 with MOD A:

- New display components have been incorporated into SN3500 units with serial numbers 5-4500 and higher. These units are marked as MOD A on the data label. The display changes are not noticeable to the operator.
- Software for MOD A units is designated as AX.XX and is not compatible with non-MOD A units

Software version A4.06 new features:

- Support for MOD A SN3500
- Increased tolerance for fluxgate input to prevent premature flagging at high latitudes
- Added selection for Garmin GTN6XX/7XX to GPS-1 and GPS-2 maintenance pages. (Operation is identical to Garmin GNS430 selection.)

### **Compliance**

No action required

### **Warranty Reimbursement**

N/A

### **Manpower**

N/A

### **Approval**

This modification does not affect the original approval. Contact Sandel for details if needed.

**SANDEL®**
