

## **SB 3400-37 Service Bulletin (Mandatory) ST3400 TAWS**

---

Date: February 3, 2016  
Regarding: ST3400 TAWS Database Release  
SB Revision: A – Initial Notification

### **Reason**

An internal audit of the ST3400 terrain/obstacle database discovered some obstacles at an incorrect height. This database release contains corrected obstacle information which is incorporated into the terrain database.

### **Applicability**

Applies to Sandel ST3400 units operated outside of the USA with terrain data dated from 03JAN14 through 15OCT15. This does not apply to data within the USA.

### **Description**

A new database update is available for the ST3400. This release includes the following terrain/obstacle and airport database files:

Terrain/obstacle date: 07DEC15

Airport cycle date: Cycle 1513 eff. December 10, 2015

Note: ST3400 MOD A and MOD B units will show an AIRPORT REV date of 07JAN16 (end of cycle) during power on and a date of 10DEC15 (start of cycle) in maintenance mode. This is normal.

### **Compliance**

Mandatory for ST3400 units operated outside of the USA as soon as practical.

For questions or to establish a database subscription please contact Sandel Product Support at [support@sandel.com](mailto:support@sandel.com) with the serial numbers of the affected units.

### **Warranty**

Database update will be provided at no charge for units under a current database subscription

### **Documentation**

Not applicable

**END**
