TSO Minor Software Update A1.05 to A1.06

Dear Ms. Haifa Haj-Eid:

This letter is to advise that a minor software update has been made to the Sandel ST3400H HTAWS.

The software changes from software part number 82046-90 version A1.05 through the current version A1.06 are described in the attachments. There were no complex logic changes. The previously approved documentation (in accordance with RTCA/DO-178B) has been revised only in those areas that are affected by this change. As part of this revision, the source code, coverage analysis, software verification test cases/procedures and requirements data, were revised as required and the required tests were performed.

I hereby certify that the article listed above has been tested and meets the performance standards of: TSO-C194, TSO-C113, and incomplete TSO-C118, and TSO-87, and the applicable parts of 14 CFR Part 21 Subpart O.

Sincerely,

Gerry Block,
President, Sandel Avionics
