

## **SIL 3400-04 ST3400 TAWS Service Information Letter**

---

Date: 10/31/2005

Regarding: Updated Terrain/obstacle database release

### **Reason**

Availability of updated terrain and obstacle database, and updated airport database.

### **Applicability**

Applies to Sandel part number ST3400-xxx. This upgrade will be provided at no charge until December 12, 2005 to replace the same coverage area. Normal charges will apply after December 12, 2005.

### **Description**

This release includes the following terrain files, obstacle files, and airports.

Terrain/obstacle date: October 14, 2005

Airport cycle date: Cycle 0511 October 27, 2005

This release, provided by Jeppesen, contains significant changes to Canada, Central America, South America, United Kingdom, Australia, and New Zealand. These terrain areas are now derived from SRTM (Shuttle Radar Topography Mission) data that will reduce terrain anomalies. Other areas, including numerous areas within the United States, have been updated with improved terrain mapping.

Due to the large file size, the SIL 3400-04 related files including the databases and instructions are available only via CD. This CD can be ordered from the Sandel website at [case-sensitive]:
